

A Tour of the Calistoga Setback Levee

WHEN: Thursday, July 24, 2014,
5:00 - 7:00 p.m.

WHERE: City of Orting (RSVP required)

Have you ever wanted to see a levee being constructed? Please join us for a tour of the Calistoga Setback Levee on the Puyallup River. The tour will be lead by Ken Wolfe, Project Manager for the City of Orting. We'll be walking along a portion of the new levee. This is an opportunity to learn how levees are built and the fish friendly features provided by this new levee.

The new 1.5 mile levee will reconnect 53 acres of floodplain to reduce flooding and provide salmon habitat.

Due to limited on-site parking, **RSVP is required** to coordinate carpool vans. We'll be meeting at a location in the City of Orting and car pooling to the construction site.

To RSVP, contact Teresa Lewis:
Phone: 253-798-2480
Email: tlewis1@co.pierce.wa.us

We are touring an active construction site. Safety gear is required. We'll provide safety vests and hard hats. You'll need to wear safety goggles, glasses, or sunglasses and close-toed shoes (boots preferred).
