

YESS Resources for Youth

(updated March 11, 2021)

Alliance for Climate Education

We educate young people on the science of climate change and empower them to take action and help them build the skills and confidence they need to become climate leaders.

Clean Energy Bright Futures

We strive to build a clean energy future to ensure that our communities and the environment are thriving and resilient. We work to expand access to opportunities for all students regardless of their geography, gender, ethnicity, or socioeconomic status.

Climate Generation A Will Steger Legacy

We believe educating is a tool of empowerment and that empowering educators as critical messengers of climate and energy literacy is part of the solution to climate change.

EarthGen

Formerly Washington Green Schools, EarthGen equips youth to grow their power as changemakers for a healthy environment. EarthGen partners with educators and K-12 school communities to facilitate youth-centered, collective solutions for a healthy planet.

Harbor WildWatch

We are an environmental education organization dedicated to inspiring stewardship for Puget Sound and the greater Salish Sea. Our motto is Learn. Have Fun and we offer a variety of interactive educational activities for kids, adults, families and visitors of the greater Gig Harbor and Key Peninsula communities.

Puyallup Watershed Initiative: Environmental Education Community of Interest

The Environmental Education Community of Interest (EECOI) is made up of people and organizations committed to providing access for residents of all ages to discover, connect, and contribute to their place in the watershed. We are working toward increased understanding of our natural environment, and are focused on stewardship, equity, and community empowerment.

Young Voices for the Planet

The mission of the Young Voices for the Planet film series is to limit the magnitude of climate change and its impacts by empowering children and youth, through uplifting and inspiring success stories, to take an essential role in informing their communities – and society at large, challenging decision-makers, and catalyzing change.
