### APPLICANT INFORMATION

Applying Jurisdiction/ Organization Name

Applicant Type

- Local Government
- Water System (Owner/Operator - Water System ID)

Name of Person Completing Application (Point of contact)

- Title
- Phone
- Email

Alternate Contact Information

- Name
- Alternate Contact Title
- Alternate Contact Phone
- Alternate Contact Email

Mailing address

- Street
- City
- State
- ZIP Code

## PROJECT INFORMATION

Project Type

- Treatment Works (Sewage)
- Water System

Project Title

Project Location: Submit maps including existing utilities in the surrounding area with street labels.

Indicate the population of the city or community in which the project is located.

Please thoroughly describe the project scope and schedule. Include the necessity or reason of the project, the project goals, and expected benefit and outcome to be accomplished. Include capital design and construction details as applicable for new infrastructure or preservation of existing infrastructure.

## FUNDING INFORMATION

Verification of matching funds must be provided prior to the date of the grant award. Application with zero leverage will be disqualified. Grant recipients must commit at least 10% of the grant funds. Please show the funds are available and describe the fund sourcing.

What is the total grant funding request for the project?

Describe the project costs including committed funds and sources. Attach a project budget.

Does the jurisdiction or organization have experience with ARPA or other federal grant programs? Describe your experience.

## PROJECT BENEFITS

Describe the health, safety, and/or environmental benefit of the proposed project. Include specific details such as location, watershed health, system condition and risk of failure, regulatory compliance, operating permits, residents served, etc.

Attach all supporting project information, maps, studies, plans, violations, etc.
