

# Advanced Cardiac Resuscitation Implementation Program and The Case for CaseReview Workshop

Hosted by Orting Valley Fire & Rescue

Join ZOLL® for two exciting workshops, hosted by Orting Valley Fire & Rescue. In these workshops, you'll discover the underlying science and practical application of Advanced Cardiac Resuscitation and learn how to improve out-of-hospital outcomes using clinical data. Lunch will be provided at each workshop.

## Advanced Cardiac Resuscitation (ACR) Implementation Program

November 14 and 16, 2023, 0900–1530 (same program each day)

Joe Powell, Chair of the ACR Advisory Board, will discuss the “why” and “how” behind the ACR cardiac survivability tools and show how you can implement an ACR program in your community. You'll also experience the ACR cardiac survivability tools at practical hands-on skill stations.

## The Case for CaseReview

November 15, 2023, 1100–1500

In this workshop, you'll learn how to use RescueNet® CaseReview in your quality assurance and day-to-day operations.

The workshop will cover:

- Improving sudden cardiac arrest outcomes
- Using trending to change protocols and drive training
- Applying trends to the opioid crisis
- Debriefing/mental health

Pierce County Parks  
Environmental Services Building  
9850 64th St W  
University Place, WA 98467
