

RANDOM CHECK OF SELECTED BATCHES REQUESTED BY PARTIES

November 7, 2023

The major political parties are encouraged to continue to request audits of the Pierce County tabulation system.

These post-election audits are authorized under RCW 29A.60.170.

The purpose of the audit is to compare a manual count of ballots to the machine count for randomly selected batches.

RANDOM AUDITS - THE CLEAR BALLOT SYSTEM

- With the Clear Ballot system all batches that have been scanned and resolved will be available as part of the audit.
- Ballot scanning and resolution will be stopped during the random check.
- One batch from each scanner (used in the election) will be audited.
- Batches will be chosen at random.
- The batch will be checked, to see if any of the ballots in the batch, for the race to be audited, were manually resolved.
- The original ballots will then be hand counted.
- Results from the hand count will be compared to the results of the machine count for the batch.
- Should results not match; a visual scan of the ballots will be performed to identify a possible reason for the discrepancy. Ballots requiring additional resolution will be processed.
- Audit findings and any actions taken will be reported to the Canvassing Board.
