

NEIGHBORHOOD SUPPLY LIST

Each disaster response team should carry supplies in a team back-pack, clearly labeled (i.e. search and rescue team back pack). In addition to the team supplies listed below, each back-pack should consist of a neighborhood map, clipboard, pens, flashlights, extra batteries, and walk-talkies. Keep supplies in a large container that has wheels and a tight fitting lid, in a location near the neighborhood response site (42-gallon plastic garbage containers are recommended).
