

## Strategic Issue 6 - Effectively Utilizing Technology

Issue description: The Court should be using technology to enhance productivity, improve citizen access, and incorporate technological advancements. Technology must support the achievement of the Court's mission.

**Goal 6.1 Implement advances in technology and take advantage of the potential that technology offers to realize efficiencies.**

**Strategies:**

6.1(a) Educate judicial officers and court personnel on existing technology and its uses.

**Goal 6.2 Ensure the Court has adequate technology staff to support court operations.**

**Strategies:**

6.2(a) Through the budgeting process, seek funding for staff positions.

6.2(b) Maintain an Information Technology division within the Court.
