

Pierce County Department of Emergency Management - Fire Prevention Bureau

NOTICE OF THEFT OF FIRE DEPARTMENT CONNECTION BRASS COUPLINGS

A rash of metal thefts that have thieves swiping Fire Department connections outside several business buildings have officials concerned. The connections are next to or outside buildings and allow firefighters to boost the pressure in fire sprinkler systems to provide water to fire hoses inside a structure.

These devices are for Fire Protection & Life Safety and the thefts pose a risk to public and businesses if there is a fire.

SALVAGE YARDS SHOULD NEVER ACCEPT ANY BRASS FITTINGS THAT HAVE THREADED HOSE CONNECTIONS THAT COULD BE THE STOLEN FIRE DEPARTMENT CONNECTIONS.

FOR MORE INFORMATION OR TO REPORT THEFTS PLEASE CALL THE PIERCE COUNTY FIRE MARSHAL'S OFFICE AT (253) 798-7179.
