

Under the bed kit:

When disaster strikes, it can be difficult to think clearly. The more you plan ahead and the easier it is to remember and implement, the faster you can respond.

At a minimum:

Keep a pair of sturdy shoes to protect your feet by each loved one's bed at all times.

Critical under-the-bed items:

- Sturdy shoes
- Flashlight & light sticks - essential for a nighttime response.
- Work gloves, preferably leather - to protect your hands from broken glass.
- Hardhat - to protect you from falling objects like chimney bricks and downed trees and branches.
- An **OK/HELP** card, found either in your PC-NET (Neighborhood emergency team) book, available from your local office of emergency management or one you prepare yourself. Hint: paperclip two band aids to the OK/HELP card to attach to a window or front door that can easily be seen from the outside.
