Signed at City, State

Property Posting Requirements

Applicability

Posting the subject property with a sign is a method of providing the public notice of a filed application for a proposed project. The county cannot complete its review until the property has been posted.

Sign Placement

- Location:** Signs shall be posted on the subject property at the principal entry point to the nearest public right-of-way possible and/or as approved by the Planning & Public Works Department.
- Direction:** When more than one road abuts the property, signs shall be directed toward the road having the greatest traffic volume.
- Height:** The lowest point of the signs must be at least three feet above the ground.
- Visibility:** Signs shall be clearly visible from the abutting road and posted in such a manner so that no information on the sign is obscured from public view due to blockage by vegetation, fencing, or other structures.
- Posting:** Signs may be attached to a structure or a pole. In no case shall signs be attached to utility poles or signposts in public or private rights-of-way. Special measures may be required to secure signs depending on soil, wind, or other conditions.

Timing

The applicant shall post signs on the subject property within 14 days of the application filing date. The intent of posting signs is to notify the public of the proposed activity. Signs shall remain posted until the final decision is issued by Pierce County.

Immediately upon posting, a Declaration of Posting (supplied with the sign) shall be completed and returned to the Planning & Public Works Department.

The Declaration of Posting is required within 28 days from the filing of the complete application.

Declaration Submittal

Upload the completed Declaration of Posting form to the online permit center at piercecountywa.gov/landusenotice

- Enter the application number
- Click on the orange “I want to...” button and select “Resubmit”
