Parcel number: _____

Forest Tax Reporting Account Number of the Timber Owner: _____

For forest tax reporting information or to obtain a tax number, contact the [Washington State Department of Revenue](#) at (360) 534-1324.

What is the intended future use of the land proposed to be logged?

- Single Family Residential or Duplex.
- Residential Subdivision (includes Formal Subdivisions, Short Plats and Large Lot Divisions).
- Commercial/Industrial
- Pasture/Agricultural
- Other _____

How much merchantable timber are you proposing to cut and/or remove?

Complete the table and identify all timber harvest and salvage activity boundaries on the Site Plan.

Acres to be harvested (net)	Volume of merchantable timber to be harvested (board feet)	Percent of total merchantable timber on site

Has a site development permit application been submitted that addresses clearing associated with the proposed forest practices?

No Yes If yes, provide application number _____

Will log truck access be directly onto an existing county road?

No Yes

Note: A temporary driveway approach permit for logging is required whenever a driveway approach to a county road will be built, altered, improved or reopened for logging purposes. Please use [Ask the Development Center](#) to request more information about driveway approach permits.

Additional Requirements

Site Plan

A site plan drawn to scale must accompany this application per [PCC 18H.20.060](#).

Required information: The site plan must include the features below. We cannot process your application without this information.

- North arrow and scale (no smaller than one inch to 200 feet)
- Harvest boundaries and tree retention areas
- Approximate location of any existing structures
- Locations of all existing and proposed street, rights-of-way, easements, skid roads, haul roads, and landings
- Location of future land development such as a building site, septic drain field areas, well, etc.
- Site topography at a contour interval of 40 feet
- Critical areas and critical area buffers regulated pursuant to Title 18E-Critical Areas
- Drainage ways

Field Markings

The following features must be clearly identified on the ground with flagging or colored paint:

- Cutting boundaries - Timber Harvest Unit Areas
- Significant trees, if any, as defined by [PCC 18J.15.030.F.3](#)

Signatures

We affirm that the information contained herein is true and understand that this proposed forest practice is subject to the State Forest Practices Act and Rules and Title 18H, Pierce County Development Regulations – Forest Practices, as well as all other federal, state or local regulations. Compliance with the State Forest Practices Act and Rules and Title 18H does not ensure compliance with the Endangered Species Act or other federal, state or local laws.
