

Critical Area Buffer Boundary Sign Standards

The following standards apply to the placement of the permanent buffer boundary signs in compliance with Pierce County Code [PCC 18E.10.080G](#).

Required buffer signs that meet the standards set by Pierce County Planning and Public Works can be **purchased online** from Cole Graphic Solutions at colegraphicsolutions.com/boundary-marker-signage

Wetland Buffer Signs:

Size: 4" x 6" rectangle
Color: Black lettering on azure blue background
Wording: WETLAND BUFFER BOUNDARY
Pierce County Planning and Public Works

Stream Buffer Signs:

Size: 6" x 4" rectangle
Color: Black lettering on azure blue background
Wording: STREAM BUFFER BOUNDARY
Pierce County Planning and Public Works

Wildlife Buffer Signs:

Size: 6" triangle
Color: Black lettering on azure blue background
Wording: WILDLIFE BUFFER BOUNDARY
Pierce County Planning and Public Works

Posting Requirements

Place one sign every 30 to 50 feet.

The signs shall face away from the critical area and must be placed on posts installed securely in the ground.

Posts can be metal or wood. If wood posts are used, they must be at least 4" x 4" in size and be made of treated wood. Posts must extend a minimum of three feet above ground and be sunk at least two feet below ground.

Additional sign requirements, such as installation upon fencing instead of posts, may be applied at the discretion of the Pierce County Biologist.

Declaration of Posting

Critical Area Buffer Boundary Signs and/or Survey Markers
