Computer Systems Business Analyst 2

Department: Various
Job Class #: 631100
Pay Range: Professional 29
FLSA: Non-Exempt
Represented: Both
CSC Approved: 09/14/10

Classification descriptions are intended to present a descriptive list of the range of duties performed by employees in this class and are not intended to reflect all duties performed within the job.

**GENERAL FUNCTION:** An employee in this classification primarily functions as a liaison between a county department and IT (which may include 3rd party vendors) to automate business systems. This classification provides a broad range of project management and technical support to departmental staff in the IT areas of end-user development, planning, testing, report writing, queries/batches, statistical analysis, troubleshooting, and training.

**SERIES CONCEPT:** The Computer Systems Business Analyst 2 is the second level in the series. This position is distinguished from other levels in the series by the complexity of work and the level and scope of supervision received.

**ESSENTIAL FUNCTIONS:**
- Plan and make recommendations for information technology strategies and projects.
- Track, solve, test, and troubleshoot software development issues and enhancement requests.
- Develop an advanced knowledge of the departmental business functions, information systems terminology, information needs, and workflow to plan, design, and propose changes/improvements to internal systems. Analyze user needs and develop system requirements.
- Act as a liaison between the department and Information Technology (which may include 3rd party vendors) to ensure the assigned department's project needs are being communicated effectively and are on schedule.
- Manage project timelines.
- Plan, or participate in planning systems purchases, enhancements, and implementations.
- Test changes and enhancements to software application systems (including creating documents and test scripts, manually updating document status and tables, and testing functionality).
- Train users on new and updated software applications or processes.
- Create, maintain, and run queries for reports and statistical analysis.
- Design and maintain scannable and electronic forms.
- Maintain the integrity and security of documents and files.
- Maintain regular, predictable and punctual attendance during regularly scheduled work hours at assigned worksite.
- Meet travel requirements of the position.
- Perform the physical requirements of the position; work within the established working conditions of the position.
- Work a flexible schedule, which may include evenings, weekends, holidays, and overtime.

**OTHER JOB FUNCTIONS:**
- May participate in county-wide and/or external technology committees.
- May participate in departmental technology budget planning.
- May act as lead technology coordinator for department.
- May assist with database or spatial analysis.
- May assign work to a specific work unit and ensure tasks are completed correctly and timely.
COMPUTER SYSTEMS BUSINESS ANALYST 2
Classification Description – Pierce County
Page 2

- May approve leave requests and work schedules.
- May provide input on performance evaluations.
- May maintain electronic file structure for department.
- May act as lead web developer for department. May develop web pages using Internet Content Editor. May review and update content of web pages.
- Perform other job functions as assigned.

SUPERVISION RECEIVED AND EXERCISED: Work is performed under the supervision of a technical or administrative superior. Work is reviewed through meetings, reports, and results achieved and compliance with regulations and policies. The Computer Systems Business Analyst 2 may lead the Computer Systems Business Analyst 1. Training, technical assistance, and guidance are provided by the Information Technology division of Finance.

WORK ENVIRONMENT: The work environment characteristics described herein are representative of those an employee encounters while performing the essential functions of the position. The Computer Systems Business Analyst 2 typically works in an office environment on a daily basis; positions in the Sheriff’s Department may work within a confined area of a maximum security correctional and detention facility and may be exposed to the inmate population. Incumbents may be required to work at a desk or other work station for prolonged periods; constant attention to detail is required. Ability to concentrate with frequent interruptions and general office noise is required.

PHYSICAL REQUIREMENTS: The physical demands described herein are representative of those that must be met by an employee to successfully perform the essential functions of this position. Physical activities required are finger dexterity necessary to operate equipment used in the position, talking, seeing, and hearing. There is some walking, sitting, bending/stooping, pushing/pulling and minimal unassisted lifting associated with the job duties. Lifting requirement of 40 lbs.
