GENERAL SUMMARY
This is a highly specialized management and supervisory position in the Pierce County Sheriff’s Department. The Forensic Investigation Manager is responsible for the operation, direct and indirect supervision the Forensic Unit, which is engaged in the identification of criminal offenders and processing of evidence obtained at crime scenes for the Pierce County Sheriff and other local and federal law enforcement agencies. The quality of the unit’s work weighs heavily in the success or failure of prosecution/conviction efforts.

SERIES CONCEPT
None

ESSENTIAL DUTIES & PRIMARY RESPONSIBILITIES
Essential functions are the basic job duties that an employee must be able to perform, with or without reasonable accommodation. This list of essential functions is intended to be representative of the duties performed within this classification. The omission of a function does not preclude management from assigning essential duties not listed if such duties relate to the position.

- Manage, supervise and coordinate activities of the Forensic Unit; determine work procedures, prepare work schedules and determine methods for expediting workflow.
- Direct and/or participate in complex or major crime scene investigations.
- Ensure that the Forensic Unit performs accurate criminal identification using sophisticated computer systems and laboratory examination of evidence.
- Assign, review and approve the work of subordinate staff; investigate grievances involving subordinates and recommend resolution; recommend hiring, promotional and disciplinary actions; approve leave requests and overtime; assure staff training meets necessary procedural and regulatory requirements; provide adequate coverage during staff absences.
- Monitor and conduct employee performance evaluations; develop performance measures and standards and evaluate employee performance as scheduled or as necessary; counsel employees to achieve improved performance and productivity as required.
- Ensure consistent interpretation and application of laws, rules, policies and procedures
- Ensure professional and accurate preparation of court displays and presentation of evidence in court; teach and demonstrate to others how to prepare and present expert testimony.
- Research, prepare and oversee the Unit annual budget; prepare budget based on established guidelines; monitor and analyze expenditures and revenues.
- Manage sophisticated computer systems such as AFIS and support them at a multi-agency system administrator level, in addition to the FBI’s IAFIS interface system, image enhancement computer, and other internal computer operations and work with other departmental groups, other agencies, computer user groups, and federal agencies in the development, testing, and implementation of computer function and hardware.
• Prepare or review correspondence, reports and other documents; respond to requests for a wide variety of information generated by other agencies at the request of various members of the Sheriff’s administration.
• Formulate, develop, ensure implementation of and provide continuous review of Unit goals and objectives. Analyze, develop, recommend and/or determine improvements to ensure continued operation and system(s) effectiveness.
• Provide expert guidance, instruction, and/or information to staff, system users, community academy classes and others as appropriate in formal and informal settings regarding forensics and the Unit’s work.
• Provide expert courtroom testimony in all phases of the job.
• Oversee issuance of Sheriff’s Department commission and identification cards and ensure that requirements are met for each card.
• Remain current on information as it relates to the scientific or technical evaluation of physical evidence and ensure the Forensic Unit’s practices and procedures are appropriate; make necessary changes to procedures.
• Maintain regular, predictable and punctual attendance during regularly scheduled work hours at assigned worksite.
• Work a flexible schedule, which may include evenings, weekends, and holidays.

Other Job Functions
• Perform other job functions as assigned.

MINIMUM QUALIFICATIONS

Education and Experience
A Bachelor of Arts degree and a minimum of five years fulltime experience at the lead, supervisory, or managerial level performing crime scene investigation with knowledge of automated fingerprint identification systems in the criminal justice field is required. Additional crime scene experience may substitute for up to two years of the education requirement. United States citizenship or lawful permanent resident, and the ability to read and write the English language is required by RCW 41.14.100.

Licenses or Certifications
