

Environmental Education

Our team of environmental educators are available to teachers of all grades, in all schools in Pierce County (outside of Tacoma).

Custom Lessons

Programs are designed with your group of teachers and support State Academic Learning Standards. We cover three main areas of environmental education:

- Resource Conservation and Recycling
- Compost, Worms and Gardens
- Water Quality and Conservation

Community Action Projects

Lessons are integrated with your classroom curriculum, and culminate with a community action, or service learning, project. Past action projects include school gardens, recycled art exhibits and habitat restoration.

Sign Up Today!

The program is free to all grades and schools outside of Tacoma. Visit our website to find more information and request a meeting with one of our educators. We look forward to seeing you in the classroom.
