

# Early Intervention

Do you have  
concerns about  
your child's  
development?

*Let us help.*

Pierce County's Early Intervention Program can connect you with a variety of local services. We're a great place to start. Contact us today for more information and to schedule a free screening!

## Family Resource Coordinators

serve as your single point of contact and coordinate early intervention services. They can provide free screenings and referral for evaluations for children under age three who are not developing as expected, have a medical condition, or are experiencing a developmental delay for any reason. Family Resource Coordinators listen to your concerns and build a support system for your services.

We *respect* each family's strengths, needs, values, and diversity.

We fund local agencies to provide education and therapy services that include but are not limited to:

- Specialized instruction
- Speech therapy
- Occupational therapy
- Physical therapy
- Deaf/Hard of Hearing Services
- Infant Mental Health
- Vision Services

All children grow and develop in unique ways. We'll work with you to find a solution that meets your family's individual needs.
