- 3. Program: “CareAvailability Website” with Amy Schmidt, Retirement Connection**
Retirement Connection Guide has launched a new website - CareAvailability.com designed to find care from anywhere on any device. All providers are able to report real-time availability at no charge. Families and providers can create a list of care & housing options, filter the list to specific needs, then share that list with a family via text or email. This is a free service, with no charge for searches. Information is not sold, kept or shared. The CareAvailability.com website can be accessed from any computer, tablet or smart phone. Learn about this new tool and how care providers, social workers and families can make the most of it.
