

# Visiting the Development Center

We have implemented a new reservation system for customer meetings and in-person services. Reserve your table in our lobby where you can wait for the permit technician, planner, biologist or engineer you need to meet with. The length of your meeting will depend on the complexity of the project and the number of staff you'll need to see.

## Save Time Online

Most of our services, including permitting functions, application intake and review, some types of inspections and live chat are available online at:

[piercecounitywa.gov/applyforapermit](http://piercecounitywa.gov/applyforapermit)

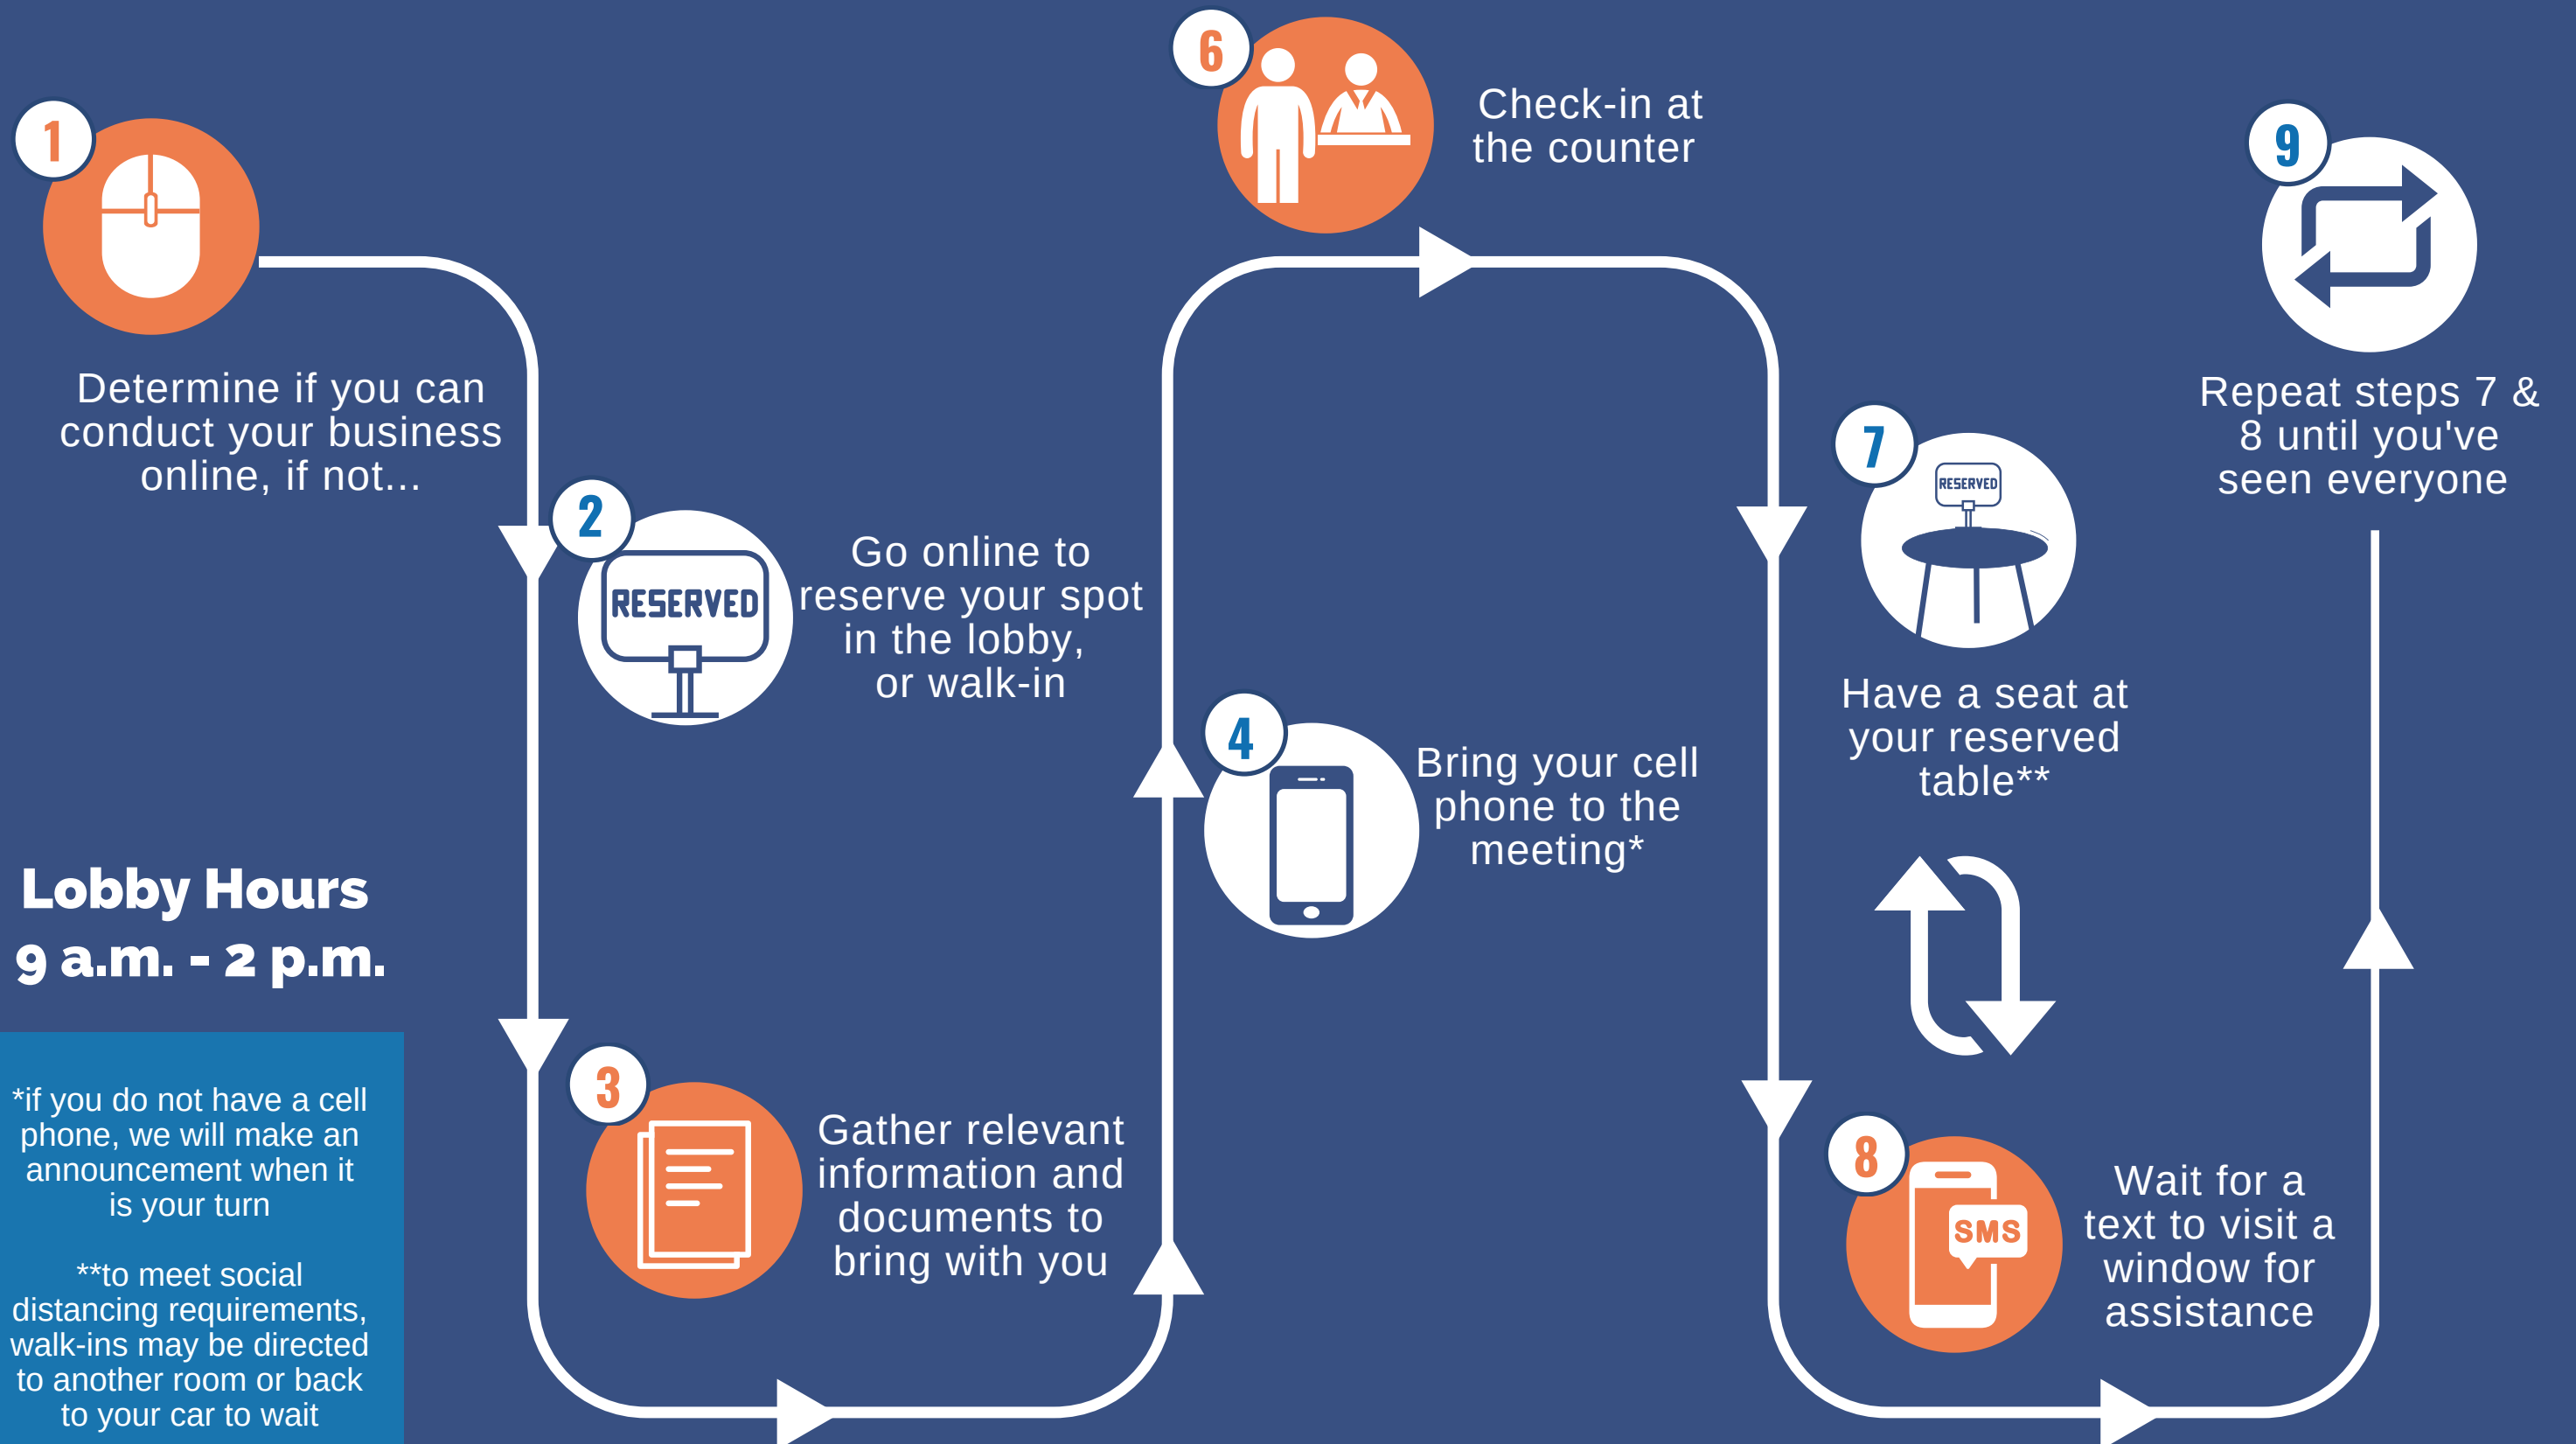

## Contact Us
