

## Pierce County Force Investigation Team Non-Law Enforcement Community Representatives

Each law enforcement agency participating in PCFIT has non-law enforcement community representatives who have credibility with and ties to communities impacted by police use of deadly force. These volunteers were selected through a transparent process, and have signed a binding confidentiality agreement at the beginning of each police use of deadly force investigation that remains in effect until the prosecutor of jurisdiction either declines to file charges or the criminal case is concluded. The community representatives are provided a copy of all press releases and communication with the media prior to release and have access to the investigative file when it is completed.
